## Gov. Patterson Tells Needs Of Education To School Leaders

Thousands of Alabama school teachers were back in their classrooms this week after hearing Gov. John Patterson challenge them "to work constantly to become better teachers, confident in the knowledge that their efforts are important to their state and nation."

Addressing the Alabama Association's annual convention in Birmingham, the governor urged educators to take a more active part in seeking additional funds for education.

"You are not going to find very many legislators and public officials who will stand up and fight for more money for schools on the floor of the Legislature if you do not stand up and support those legislators," he said.

Gov. Patterson pointed out that Alabama ranks fourth in the percentage of school aid coming from the state level. "Our state government puts up 70 per cent of the total cost of education," he said, "while the national average is 40 per cent."

Urging education leaders not to be "over-optimistic on purpose," Gov. Patterson said he believed Alabama public had been "anesthetized by constant year after year warning of school crisis after school crisis." He asked that school officials give the people "the other side of the story" as well as stories of educational shortcomings.

Give the people the bright side too, a pat on the back occasionally, and I believe it will awaken their inherent sense of pride and make them want to help their schools more," the governor said.

On the bright side, Gov. Patterson pointed out that expenditures in the state's elementary and high schools in the 1960-61 school year totaled \$176,000,000, or an average of more than \$241 per student in average daily attendance. In addition, the state spent \$34,298,900 in building new grade schools last year and "millions" more on trade schools, colleges and universities.

"Despite what you may have heard in the present political campaign, Alabama's current expenditure for public schools per pupil in average daily attendance is more than in Mississippi, than in Tennessee, and in South Carolina. Definitely, we are not rock-bottom, but admittedly, we have a long way to go," the governor said.

### Sgt. Gerald Gribler On Duty In Hawaii With 35th Infantry

Army Sgt. Gerald D. Gribler, whose wife, Jimmie, lives on Rt. 2, New Brockton, is participating with other members of the 35th Infantry's 1st Battle Group, 24th Infantry, in three weeks of annual Army Training Tests at the Pohakuloa Training Area on the island of Hawaii. The training is scheduled to end March 25.

Sgt. Gribler and other 35th Infantry personnel are maneuvering over the rugged lava-covered terrain between the famous mountains Manna Loa and Mauna Kea. Combined arms exercises utilizing live ammunition are being conducted along with the standard company-size training tests. The Pohakuloa training is an extension of the mountain and jungle warfare and anti-guerrilla operations conducted near the 24th Division's home station of Schofield Barracks on Oahu.

The 25-year old soldier, a squad leader in Company C of the Infantry's 1st Battle Group, entered the Army in 1954 and was stationed at Fort Benning, Ga., and arrived in Hawaii on this tour of duty in December, 1959.

Senator Lister Hill Speaks On Senate Floor Against Amendment Abolishing Poll Taxes

Washington, D. C. — Senator Lister Hill (D., Ala.) charged in a major speech on the floor of the Senate today that passage of the proposed constitutional amendment to abolish the poll tax would open the way for the destruction of the fundamental rights of Alabama and the other States and the fundamental rights of the people of all the United States.

Hill told his Senate colleagues, "Let us be done with this proposed amendment, which can only distract and misguide our people and which separates and divides us."

"Let us stand united, strong and resolute in our unity. Let us stand squarely upon the Constitution of the United States, the rock of freedom, ageless and enduring foundation of our rights, our hopes and our democratic faith."

The senior Alabama Senator stated that the proposed poll

## Cattle Judging Class Demonstrates Studies With Purebred Stock Owned By W. H. Taylor

Putting into practice some of the things studied in vocational agriculture classes was demonstrated by some 32 Elba Future Farmers of America Saturday on the farm of W. H. Taylor.

As a climax to their study of selecting and judging farm animals in the classes, the Elba students judged classes of bred beef animals, judged and graded marketing beef animals. These animals were furnished by Haywood Taylor, local farmer and purebred Polled Hereford breeder.

The FFA's also got some first hand experience judging purebred Duro breeding hogs from the farm of H. C. Collier and Spotted Poland China marketing hogs from the farm of Dock and Jimmy White. All of Elba boys took part.

## Evangelist Eddie Lieberman Starts Revival Here At First Baptist Beginning March 26

Revival services will be held at the Elba First Baptist Church March 28 through April 1, according to an announcement by Dr. Charles E. Graham, pastor.

Eddie Lieberman, a Christian Jew, will be the visiting evangelist during the revival with services scheduled for 10 o'clock each morning of the revival dates and at 7 o'clock each evening.

Lieberman was reared in a Jewish home and training school and was a member of a strict Orthodox Jewish synagogue. At the age of 19 he was placed in a Federal prison and it was there that he became a Christian.

He has been a teacher, pastor and entered the evangelistic field in 1947.

At the age of 19, Lieberman was placed behind bars in the Federal Prison in South Carolina. In the cold shadows of the iron bars, he was given a New Testament, the first he had ever seen or read. After two and a half months of reading, he came to accept Jesus Christ as the Jewish Messiah and his Saviour.

His campaigns and Bible work have taken him across America, Mexico, Europe, South America and Argentina. He has urged invitations to preach in Japan.

The Elba First Baptist Church is inviting everyone to these services by a formal invitation in The Clipper the past two weeks.

## RAMBLING ROSES AND FLYING BRICKS

BY EARL TUCKER  
THOMASVILLE, ALABAMA

Attention, young married couples and teen-agers! I have worked out a plan whereby you can send your grandchildren through college at little or no cost to you. All you have to do is save the various gadgets and appliances around the house, storing them in a safe place instead of allowing them to be hauled off by the garbage man. In forty years they'll bring in enough money for you to educate your children's children.

By 2002, a 1962 television set will probably bring as much as a thousand dollars. Radios will be a collectors item and an electric or gas range will pay off the mortgage on the old home place. An iron bedstead should be worth maybe a small fortune and there just ain't no telling what a wood-burning cookstove will be worth.

How do I figure all of this? Actually, it's very simple. Do you know that the old-timey coffee grinders popular just for forty years ago are now worth as much as fifty dollars and can be found? Four-poster beds are so much in demand that mountaineers have started making them. What they do is to shoot the post with number 9 shot to give them the worn-hold effect. Old brick sell for twice as much as new brick and a company in Mississippi is now making old new brick or maybe they're new old brick.

A dasher-type milk churn now will bring a fancy price, and they'll be more and more valuable in the years to come. There are crown people, right now, who will look at a churn and tell their children that that was what the old folks used to make home-brew in during the days of prohibition. Then there is the old crank-style sausage grinder. What they are powerfully scarce and

should be worth quite a lot.

Back in the hog-killing days the people would make long socks out of cheese cloth, place the sock over the end of the sausage grinder and start cranking. Some people used the intestines of the hog, instead of the cheese cloth sock, but this was frowned upon by commissioners of good food because it meant that there would be no chitterlings on the third day following washings, two ringings and 48 hours of soaking.

It's a pity we youngsters destroyed so many things back then that would have been mighty valuable now. For example, we had an old horn-type phonograph with a lot of popular records. We finally tore up the machine and busted all the records. We had one record by a character called "Uncle Josh," who was the Bob Hope of 1910.

People visiting in our home would play the Uncle Josh record for an hour at a time, mainly because it took about ten playings before you could figure out what he was saying. I knew all the jokes to sort of act as the interpreter. A fellow would look Uncle Josh how come he didn't fix his roof and Uncle Josh said it was raining and the fellow said how come he didn't fix it when it wasn't raining and Uncle Josh said it didn't leak when it wasn't raining and everybody would bust their sides laughing at this funny joke. Well, it really was funny the way Uncle Josh told it. Maybe I ain't telling it right.

We also had the "Battle of Santiago" on a record and if I just had a copy of it for world distribution, there would never be another war. It was a terrible thing, with shells bursting and bayonets clashing and men screaming and dying and carrying off something awful. We also had another record. Papa bought at Mobile which Mama kept hid in the bottom of the trunk and wouldn't allow him to play on account of she said it wasn't nice. We kids used to get it out on Wednesday afternoons when Mama went to the missionary society but we couldn't figure why it was so bad. What they are powerfully scarce and

### Girls State Entrants

#### Discussed At Meet

By B and PW Club

The Elba Business and Professional Women's Club held their regular monthly dinner meeting Monday, March 12, at Paul's Cafe.

After a delicious dinner, the meeting was called to order by the president, Miss Gladys Clark. A report was given by Mrs. P. H. Sellers of the District meeting, which was held March 11, in Bufada.

Mrs. Bellers, Miss June Ray Jones, and Miss Gladys Clark attended this meeting.

The District 12 officers for the coming year were elected in Bufada. Mrs. Sara Russell of the Bufada Club was elected District Director. Mrs. Gladys Hasler, Dothan League, Co-Director. Mrs. Margaret Gordon, Bufada, Secretary Treasurer.

Members were given details of the National Convention to be held in Los Angeles in July. The State convention will be held in Birmingham on May 4, 5, and 6th. All who can be urged to make plans to attend.

Mrs. Fleetwood Carley, program chairman, introduced Mrs. Ruth Hawkins, who addressed the club on the subject of Girls State. Girls State in Alabama is now in the twentieth year. Delegates are selected in May to attend the sessions in June.

Spansed by the American Legion Auxiliary, it is a program for training the girls of America in the fundamentals of citizenship. It is "A Laboratory of practical government," a personal application of the duties, responsibilities and privileges of American citizenship.

Girls State meets each year at Huntington College in Montgomery.

To be qualified to be a delegate a student must be a junior in high school, physically fit, and a citizen of Alabama. Leadership, good character, courage, honesty, scholarship, cooperativeness and physical fitness are all considered.

In Elba the candidates wrote a two minute speech entitled: "Why I would like to attend Girls State." Only one delegate from each high school may attend until each high school is represented. If there are any vacancies remaining, two delegates may attend. Each delegate attending Girls State is encouraged to be a candidate for an office so they will get more out of the events. Any person or club may sponsor a delegate as long as the qualifications are met.

### OFFICIAL CRITICISM

"100 Years Ago"

Confederate officials received much criticism in early 1862. This included the President, Vice-President and the Congress.

Only one week after inauguration for President Jefferson Davis, criticism of his work, or some stated "lack of work," was prevalent. On March 1, 1862, Mrs. Mary Boykin Chestnut, of the South Carolina diarist, wrote, "The Columbia 1 do not know a half dozen men who would not gaily step into Jeff Davis' shoes with firm conviction that they would do better in every respect than he does."

Perhaps some criticism of President Davis was due to friction within the administration. Vice President A. H. Stephens was charged with "openly opposing the administration." In his dislike for Davis, Stephens spent a large percentage of his time at his Georgia home with his blind, deaf dog, Rio, and a half brother, Linton. So numerous were his days spent in Georgia that his friends often begged him to return to Richmond and his work.

Mr. and Mrs. Bobby Anderson and son of Pensacola visited Mr. and Mrs. Collet Anderson last Sunday.

Mr. and Mrs. Carlton Gaudin and son and Mr. and Mrs. Chas. Gaudin attended the birthday dinner of Mrs. Chas. Gaudin's mother, Mrs. Dale Clark Sunday in Niveville, Florida.

Mr. and Mrs. Joseph Saunders and Pat and Mr. and Mrs. Dan Johnson visited relatives Sunday in Montgomery.

Windel Anderson, son of Mr. and Mrs. Anderson, of Winder Garden, Fla., is on the sick list again. Windel's grandparents, Mr. and Mrs. Ab Sney and Mr. J. T. Anderson reside here.

Carlton Lee continues ill this week.

### WHAT IS A DERMATOLOGIST?

A physician, who after much additional study, specializes on the diagnosis and treatment of diseases of the skin, is a Dermatologist.

When your skin problem is unusually difficult to cure, your own physician may recommend that you need additional help. Should he do so, follow his advice. There are few skin troubles which cannot be relieved or cured. Many are so complex they require a specialist.

What would happen to you if all the Rural Electric Co-ops in Alabama ceased to operate?

"Nothing," you say? You live in town. Think again!

Rural electricity supplied by the Rural Electric Cooperatives has done more than any other thing to raise the buying power of the Alabama farmer. Thanks to low-cost rural electricity, he can operate his farm more efficiently, can produce more and better crops, can make more money. And this money that he makes he spends in the towns and cities of Alabama. Take away Rural Electricity and you take away the farmer's power to buy. Business grows where a power line goes.

### LAW IS CRAZY

The AFL-CIO has proposed a pretty soon. They give as their reason for thinking so that lots of things have already been done that was not previously possible. But I don't believe man will ever go to the moon and come back. If he gets there—and I'm from Missouri on that—he will be stuck. If it gets as hot in the day time, or as cold at night-time, as we've been told it gets on the moon, a man can never live through either one. Instead of 24-hour days, the moon's days are about 700 hours, about 350 hours in a day and the same in a night. In the day it gets hot enough to boil water, and that would kill a man. In the night it gets far colder than anywhere on earth—north pole or south pole. And we have a few of the necessities of life here on the earth. A little while longer, I'll be content to stay here with them.

HEY! GOING TO THE MOON? WHO? ME!

No sir-ee, I'm making no reservations in anybody's moon-craft. I'll take the rest of mine right here on earth! If I can have a few of the necessities of life here on the earth, a little while longer, I'll be content to stay here with them.

But it wasn't the unshelled pecans that made me hungry in the first place. And I know why it's less allowable for me to eat shelled pecans right out of the pan than to wait and get them in a pie, in fruit salad, or in something all mixed up with chips and chops, and with what-have-you. Wonder if any boys ever had such a "right boss?"

Straw Polls Taken  
Around Area For  
Gov. Candidates

A straw poll at the Jaycee meeting last Thursday night resulted in a different story to those that had been conducted during the past few weeks.

In the Jaycee poll Polson took 18 votes against his closest opponent, Wallace, with 10 votes, deGraffenried received 4 votes.

A straw poll at the Elba High School recently gave Wallace the lead in the governor's race. The poll was taken from the 10th, 11th and 12th grades.

The results were as follows in that poll: Wallace led with 91 votes, Polson took 65 votes, deGraffenried 18, Gallion 12, Connor 1 and Boutwell 1.

In a poll in Mobile this week at the annual convention of the League of Municipalities there were three men running for governor in the eyes of a cross section of Alabama municipal officials.

Jim Polson, George Wallace and Ryan deGraffenried are the three men believed to be heading the list. City officials expressed their confidence in Wallace and deGraffenried as a crowd of Polson, but no one placed Polson lower than second place on May 1 and a majority gave him the top spot. Wallace was said to be a strong second with deGraffenried as the fastest moving man in the field as of now.

But that poll was recalled that a similar poll four years ago at this same convention gave Wallace a wide majority over the field but the voters didn't agree.

**Sunday Worship**  
At First Baptist  
To Begin At 10:30

The Morning Worship service at the Elba First Baptist Church this Sunday will begin at 10:30 a.m. rather than at the regular 11 a.m. time. This is to be a special service on the final day of the revival meeting now in progress at the First Baptist Church.

The visiting evangelist, Eddie Lieberman, will bring his final message in the evening worship service at 7:30 this Sunday. Bro. Lieberman's message on Friday night will be "From Prison To Pulpit." This will be the evangelist's own testimony of his conversion.

**Alabama delegates** in the 1962 Youthpower Congress were chosen as a result of their entries in the annual "Youthpower" contest sponsored by Alabama food industries and coordinated by the Alabama Farm Bureau.

Spinn served in the armed forces four years, serving with the Navy during World War II. He spent 23 months at the Aleutian Island, in Adak, Alaska, and was on sea duty during the balance of his service period.

Spinn pledges that he will always be available if he is elected as sheriff of Coffee County and will answer all calls and complaints immediately. It is his desire, according to his statements, to work for the betterment of his county and state and will solicit the support of the citizens of the county during the months ahead.

His name will not appear on the ballots for the May Primary elections, but will be on the ballot of the November general election.

**Thanks... For a**  
Job Well Done

Sunday afternoon, March 11 many loyal members of six Elba churches went from home to home in the name of Christ and His Church in a city wide religious survey. Every person went out to bring home to the church a testimonial of faith. The workers brought back a good report on the gracious reception they received at the homes of the people.

Connor's speech was education, he said comes first. He gave his views of integration, law enforcement, the prison system, old age pension, the highways and industry and the liquor from his or her own church. He mentioned as of vital importance in Alabama. He pledged to the people of the Master. The workers brought back a good report on the gracious reception they received at the homes of the people.

**EVEN THE CHILDREN** around the "Big Jim" and his beautiful wife, Jemella, Polson was in top form in Elba Saturday morning, when a packed auditorium of friends and supporters spilled on out over the square outside, heard his speech and enjoyed the "Folsom String Band."

A group of a dozen or more young boys, too young to vote, assisted in the "whopping it up" for the big man from Elba, who sits at the top in his race for governor of Alabama for a third term.

Polson has many relatives in this area where he was raised and reared this hill and fished the rivers and creeks when Elba was a much smaller town than it is now. A lot of his support in his efforts to be governor for a third term are from those who have been his faithful friends since he was a barefoot boy attending the Elba schools.
